

PITTSBURGH MINERS ARE ORDERED OUT MONDAY

PREMIER HARA, OF JAPAN, REPORTED KNIFE VICTIM MINERS IN DISTRICT NO. 5 ORDERED OUT ON STRIKE

First Strike Order Comes From Pittsburgh Headquarters Friday Noon. 45,000 Soft Coal Miners Are Affected

Pittsburgh, Pa., November 4.—The first strike call in protest against the discontinuance of the "check-off system" of collecting union dues, was issued here today by Robert Gibbons, President of District No. 5, United Mine Workers of America.

45,000 soft coal miners in Western Pennsylvania were affected by the notice, which goes into effect at midnight Monday, November 7th.

Operators Prepare
While the Mine Workers were in session operators had expressed belief that the miners would wait until payday, Nov. 10th to see whether the operators actually discontinued the check off. However, foremen at mines had been notified to get the mines in shape for an indefinite shut down.

Gibbons announced the strike order would not apply to coal operators who agree to continue with the "existing contract."

Strike Halted In Illinois
Chicago, Ill. Nov. 4.—The spread of the unauthorized strike of bituminous coal miners halted today pending the action of the mine owners regarding the check off injunction.

With approximately 35,000 miners on strike in Ohio, Indiana, and Illinois, further walkouts hinged on whether the operators would abide by the court ruling and refuse to withhold union dues from the miners' pay.

Decision by the operators as to whether they will violate the injunction or violate the contract with the unions is expected to be announced in all fields within a week.

Central Coal Association Meets
Altoona, Pa., Nov. 4.—Fifteen directors of the Central Pennsylvania Association met in session here today to decide what stand to take on Judge Anderson's injunction against the check off.

AUTO BANDITS HOLD UP BANK RUNNERS. SECURE BIG LOOT

(By United Press)
Philadelphia, Pa., Nov. 4.—Four armed automobile bandits today held up Henry Disher and Charles Kramer, messengers of the Corn Exchange Bank, here and escaped with a satchel containing \$5000 in cash and a number of checks.

The hold up took place near the plant of the Roosevelt Worsted Mills.

French Journalist Says Harding Confident of Conference Success

British Parliament Approves Washington Meeting

(By United Press)
Paris, France, Nov. 4.—President Harding is certain the Washington Conference for Limitation of Armaments will be successful, according to Stephane Lauzanne, editor of Le Matin.

Lauzanne, one of the foremost journalists in France, and who is in Washington to report the Conference, published in his newspaper today conclusions drawn from an interview with President Harding. He did not directly quote the President.

According to Lauzanne, the President takes the following positions: America enters the conference absolutely without self interest.

She is likely to ask something for others but nothing for herself.

Limitation of naval armament will probably be a prelude to the reduction of land armament.

The conference is likely to be a forerunner of similar congresses.

LOCAL MINE UNION OFFICIALS AWAIT OPERATORS MOVE

Pres. Brophy, Dist. No. 2, Says Miners Expect Operators To Carry Out Their Contracts.

MINERS' VIEW IS CITED BY CHIEF

Speaking of the local situation regarding Judge Anderson's check off injunction, President John P. Brophy, District No. 2, United Mine Workers of America said:

"A summing up of the situation here is that we have a contract with the operators association which provides for the deduction of the check off and we expect the operators to comply with that contract. We are assuming that the operators will carry out the contract until we have evidence to the contrary."

He went on to declare that "The injunction as we understand it applies only to territory under Judge Anderson's jurisdiction. Of course there would be no call, under this view for the operators here to put it into effect in this field."

Operators to Meet
DuBois, Pa., Nov. 4.—Members of the Bituminous Coal Operators Association of Central Pennsylvania, the operators of District No. 2, have been summoned to meet in Indiana Saturday morning next at 11 o'clock to consider the injunction order issued by Federal Judge Anderson, forbidding the collection of the check off.

Britain Seeks Peace Insurance
London, Nov. 4.—Great Britain will seek a means of insuring world peace, through the Washington Arms Conference, Austin Chamberlain, government spokesman, declared in the House of Commons today.

"The policy of the British is to seek peace and to insure it. I earnestly hope the conference will bring relief to an overburdened world," Chamberlain declared in debate on a motion to place the House of Commons on record approving the conference.

Chamberlain expressed "profound regret" that Lloyd George would be unable to depart for Washington immediately. He said he hoped the premier would be able to assume the leadership of the British delegation later.

Lloyd George had planned to sail tomorrow, but was detained by the critical Irish situation.

Commons Approve Conference
London, Nov. 4.—The British House of Commons approved the Washington Arms Conference this afternoon. A resolution expressing Parliamentary approval of the meeting was adopted following debate without a dissenting vote.

MISS CECIL BEVAN

Miss Cecilia Bevan, came over to America to escape the boredom of London's aristocratic life. She has won so many contests that she says she won't compete for American honors.

JAP PREMIER IS SLAYER'S VICTIM

GEN. PERSHING ATTACKS CHARGES OF SEN. WATSON

Declares Hanging Accusation Entirely Without Foundation And Most Outrageous

Nashville, Tenn., Nov. 4.—"It is a most outrageous and untrue accusation it is possible could be made and without foundation," said General John J. Pershing here today, referring to the charges made by Senator Tom Watson, of Georgia, that members of the American Expeditionary Force were hanged without court martial.

Sweeping Investigation Ordered
Washington, D. C. Nov. 4.—A sweeping investigation of Watson's sensational charges that "American soldiers were hanged like dogs" without trial, was reordered today by the senate without a dissenting vote.

which is urged by Secretary of War Weeks who demanded that the stigma over the Army be lifted, will cover all of the charges made by the Georgian senator.

WESTERN STATES SEEK RATE SLASH

(By United Press)
Washington, D. C. Nov. 4.—Four western states, Kansas, Arizona, North Dakota and Nevada, applied to the Interstate Commerce Commission today for reduction of interstate and interstate freight rates on wheat and coarse grain approximately 10 per cent.

THINK OF JOB—AND BE PATIENT

When you get this paper, if you ever get it, well, the best advice we can offer is to think of Job and be patient. The truth of the matter is that the Biblical Job didn't have anything on The Progress force. Just about the time we think we've got rid of one flock of "pests" along comes something else to happen suddenly and all bets are off. And the worst of it is we are doing our best, and then some, to get on our feet but had luck seems to be making us take the count pretty regular.

However, we expect to make a comeback—eventually, and can only ask that you be patient, and expect your paper when you get it.

State Dept. Receives Notice Of Attack On Premier Hara—Dead Or Dying.

NATION SHOCKED

(By United Press)
Washington, D. C. Nov. 4.—Premier Hara, of Japan, was attacked by an assassin in the railway station at Tokyo and is reported either dead or dying, according to an official cablegram received by the State Department today, from the American Embassy there.

The cablegram was filed at Tokyo Friday night and stated that Premier Hara was "dead or dying" as a result of being stabbed.

Official Shocked
Secretary of State Hughes was at a cabinet meeting when the report came in. He had not seen the official cablegram but stated "I am terribly shocked."

The state department issued the following statement: "In a telegram sent from the American Embassy at Tokyo at 9 p. m. the state department was informed that Premier Hara, of Japan, had been stabbed at the railway station at Tokyo this evening and is now reported dead or dying."

Japanese embassy officials and delegates to the Arms Conference were visibly shocked at the information. They had no official word from Japan.

FLAMES DESTROY BIG OHIO BAKERY

Youngstown, Ohio, Nov. 4.—The Youngstown Bread Company's plant, one of the biggest bakeries in the state of Ohio, was destroyed by fire early today.

The loss is estimated at \$250,000. After three hours work firemen prevented the destruction of residences and buildings in the vicinity.

SNOW ON MOUNTAINS

The first tracking snow of the season covered the mountains north of town Thursday. In the "Big Knob" section a couple of inches of "the beautiful" fell during the day.

HUNTERS LICENSE LIST IS NEARING 9,000 MARK NOW

County Treasurer's Office Swamped With Applications For Permits To Chase Game.

HUNTERS TAKE TO FIELD FRIDAY

The woods of Clearfield county are literally filled with hunters these days and the number is increasing daily by leaps and bounds. Up to Thursday evening there had been issued 8607 hunters' licenses at the County Treasurer's office. This was 530 in excess of the total number issued at this time last year.

In addition to the large total this year there was a stack of applications on file which the clerks in the Treasurer's office estimated would increase the number issued to at least 8800 by this evening, while every incoming mail brought its quota of applications.

Expect 9000 Total
The small game hunters have now about all secured licenses for the year but the deer season, which opens on December 1st, will again increase the rush for permits to hunt and the total number of licenses for 1921 is expected to go well beyond the nine thousand mark.

The opening day of the season was very wet and disappointing to the hunters and Wednesday was not a very satisfactory day. Thursday, however, provided ideal weather conditions and a large number of pheasants and rabbits were slaughtered in this immediate vicinity.

BODY OF GYPSY-SLAIN-FOUND IN BURLAP SACK

Miners Discover Body Along Banks Of Little Stream. Draft Cards Are Only Clue To Identity

(By United Press)
Pittsburgh, Nov. 4.—Partly hidden in a burlap sack the body of a man believed to be a gypsy was found along the banks of a small stream near Turtle Creek today.

The man had been strangled and his body hurled from a passing automobile, according to police. The body of the man, who was about 30 years old, and well dressed, was found by two miners.

Draft registration cards bearing the name of Adams of Loraine, Ohio, and Dominic Zapp, of Warren, Ohio, were found in his clothing.

QUIET ELECTION! - NOT IF THE PRESENT SIGNS ARE RIGHT

Instead of being a quiet election as many have forecast the voting to be done next Tuesday bids fair to be remembered by the men and women of Clearfield County. While there has been a lot of activity on the part of the candidates, it is only within the last few days that the voters have sat up and began to take notice to what has been said.

The principal county offices on which there are contests are: District Attorney, Sheriff and County Treasurer.

For District Attorney, John C. Arnold, the present incumbent who is serving his first term is opposed by Wallace W. Smith, of Clearfield, Laing, a war time coal operator, of a young attorney, the son of Ex-Judge A. O. Smith.

For Sheriff, Thos. J. Lowell, of Penfield, Pa., who formerly was post master there, is opposed by Terry Gleason, who prior to the advent of prohibition was a wholesale liquor dealer at DuBois.

For County Treasurer, Gertrude Rumberger, daughter of the late Amos Rumberger, who was nominated by the Republicans in order that

NEW YORK WATERFRONT IS SWEEPED BY FLAMES

Blaze Destroys Piers, Warehouse, Train and Barges—Does Damage Estimated At Three Millions

(By United Press)
New York, N. Y. Nov. 4.—Fire swept the Weehawken water front for a half mile early today, destroying five piers of the Erie Railroad, two oil laden trains, a huge warehouse, and thirty barges before it. The damage is estimated at \$3,000,000, was finally brought under control.

Embers Rained Over Wide Area
Embers from the blaze rained over the theatre and cabaret district while crews of vessels along the water front were called to fire posts because of the blazing fragments blown across the river.

The fire was discovered in Pier "D" and despite the work of firemen spread rapidly to neighboring piers, while a Standard Oil Company train was quickly consumed.

ROTARY OFFICIAL GUEST OF LOCAL ORGANIZATION
Roy Niville, Governor of District No. 6, Addresses Local Rotes On New Constitution.

Roy Niville, of Sharon, Pa., Governor of District No. 6, was the guest of the local Rotary Club at their weekly meeting at the Hotel Jordan last evening. Nearly the entire total membership of the club was present and after the regular meeting enjoyed an entertaining fifteen minute talk by the District Governor, who interpreted many of the new changes contained in the recently adopted International Rotary Club constitution.

T. Riley Lytle will address the local club on "Shoes" at the regular meeting on Thursday evening next.

"GOOD KILLERS" VICTIM TURNS ON SLAYER-KILLS HIM

Death Of Cammorra Chieftain Hands Police Clues To Dozen Italian Killings In Last Few Weeks

(By United Press)
New York, N. Y., Nov. 4.—Clues to a dozen killings were handed police today as the result of the slaying of a Cammorra chieftain by his intended victim.

New York's 23rd murder proved a grocer, who told police he had been threatened with death by the "Good Killers" turned on the man, sent to assassinate him and shot him dead. Carnello Raspoli, who lost out in the pistol duel, is alleged to have been high up in the Italian murder ring.

Raspoli, according to the grocer, was a member of the Cammorra and chieftain of a secret society band of gunmen who were responsible for a murder at Sheepshead Bay on Labor Day.

Detroit Bandits Successful
Detroit, Mich. Nov. 4.—Six armed bandits today held up drivers of the Gordon Pagen Banking Co. and escaped with \$4000 in cash.

On June 19th, 1920, the Keystone Company acknowledged the several allotment notices and thanked the brokers for same. Then came the break in sugar prices and on August 21, 1920, with sugar down to 8 cents per pound the Keystone Mercantile Company notified the Franklin Refinery people not to ship the sugar contracted for as above, stating that they would refuse to accept it.

On April 8, 1921, the refinery people notified the Keystone Company of their breach of contract and made demand for the amount due as set out in the statement filed with the notice of suit.

O'Laughlin, Fenerty & Kelley, representing the Franklin Sugar Refining Company of Philadelphia, entered suit in the Clearfield county courts against the Keystone Mercantile Company, of DuBois, in an effort to recover \$23,331 with interest from April 8, 1921.

The suit is the outgrowth of the recent sugar speculation which ended in a crash of prices in the fall of 1920, and the sum asked for represents the difference between the price of sugar on June 1, 1920, and that of August, 1920, and the amount involved is \$23,331, the largest sum sued for in the Clearfield county courts in several years.

The statement charges that the Franklin Refinery was selling a part of its output to the DuBois concern through the J. H. Huston Co., Inc., a brokerage concern. On June 1st and July 15th 1920, contracts were made between the parties for 460 barrels of sugar at 22 1-2 cents per pound, to be delivered during September, October and December, 1920, or as soon thereafter as possible.

On June 4th, the brokers notified the Keystone Company that they had 115 barrels of sugar for them for November shipment. On June 8th they were notified that another 115 barrels were in sight for shipment in October and on June 11th notice was sent to DuBois that a similar shipment was allotted them for September delivery.

On June 19th, 1920, the Keystone Company acknowledged the several allotment notices and thanked the brokers for same. Then came the break in sugar prices and on August 21, 1920, with sugar down to 8 cents per pound the Keystone Mercantile Company notified the Franklin Refinery people not to ship the sugar contracted for as above, stating that they would refuse to accept it.

On April 8, 1921, the refinery people notified the Keystone Company of their breach of contract and made demand for the amount due as set out in the statement filed with the notice of suit.

NEWS OF OUR NEIGHBORS CURWENSVILLE.

Dr. Waterman was called to Curwensville on Thursday a. m. in consultation of the Robbie Robinson pneumonia case. Dr. Blair is handling the case which is a very serious one.

The Hon. Peter Gearhart, of Pike township, was in town yesterday. In conversation with him, he informed us that he had been pretty well over the county lately and that the grain fields were all looking in dandy shape, as good if not better, than ever at this time of the year. He is also of the opinion that a very light vote will be polled at next week's election, as there are no very vital questions to be voted for. Mr. Gearhart is a very observant man, and it is a pleasure for one to talk to him.

John Furst, formerly connected with the Curwensville National Bank now located in Philadelphia, came to Curwensville Wednesday to engage in a week's hunt out on the mountains.

Rev. Max Lantz, accompanied by two sportsmen friends of Altoona, arrived in Curwensville on Wednesday and will spend the balance of the week on the mountains seeking "Burr rabbit and the festive pheasants."

Mrs. Isaac B. Norris left yesterday for Philadelphia where she expects to spend several weeks.

Tyrone High School foot ball team and Curwensville High School foot ballists, will enter a contest on the home grounds on Saturday afternoon. Price of admission within the reach of every one.

The Nevin Concert Co., has come and gone. Their coming was anticipated by every body; their going was regretted by all who heard them Monday night. There was a good sized audience and perfect attention throughout the entire program. It would be hard to single one number out and praise it especially when all did so well. The program was unique, rendered in perfect harmony, and very restful and entertaining. Curwensville will over all the Opera House if the Nevin Concert Company comes again. In leaving Miss Taylor, who represented the company and the performance so graciously and pleasingly, said, "Curwensville certainly was good to us. Please let me shake hands again. We like to shake hands with Curwensville people. They are so different and have been so courteous to us."

The High School Foot Ball team did not win the game from Indiana last Saturday. We are glad to report that they did not lose the game or anything else. There is a difference between losing a game and not winning it. Can you figure it out? Then we are glad to say that our boys did not lose their honor and dignity. They played a square game, and it was a good one too. On Saturday of this week our boys will play the Tyrone High School a return game. The last game at Tyrone was a tie, neither team scoring. On Saturday of this week the game will be a closely contested one. Any one who is a foot-ball fan should not miss the game. There has been some lack of support at our home field. Let Curwensville turn out Saturday and encourage the boys in their efforts to not only play a good game, but to bring home the "bacon."

The proceeds from the sale of tickets for the Lyceum Course was \$432.00. This included all resources. The course costs \$350.00 and the Opera House \$30.00 a night for five nights, making the total cost \$500.00 for the five numbers. The printing will cost about \$25.00. So those lack of the course have some work to do yet before they are financially safe, but we believe that the Curwensville patrons of the fine arts will not suffer those in charge to lose money.

Measles, etc have depleted the school during the past two weeks. Some parents do not have a doctor and keep their children in school until found out by the teacher or nurse. This is not fair to the health of the other children. If your child has a contagious disease, keep him at home, consult a doctor, and have regards for the rest of the children. The law could be invoked against

such abuses, but a warning should be sufficient.

Principal Grant Norris returned from the Blair County Institute, where he was one of the instructors, on the late train Sunday night. He reported a great institute under the management of Superintendent T. S. Davis, and that Dr. Matheny, one of the instructors there would be on the Clearfield county institute program. He was greatly pleased with Dr. Matheny's work.

Prof. George E. Croyle, Assistant Principal, had charge of the schools during the absence of Prof. Norris. His work in conjunction with Prof. P. A. Zetler, Misses Laura, Walter and Laura Burkett is making for proficiency in our high school.

The food sale conducted by the Senior Class of the local high school was a great success last Saturday. \$45.00 was cleared during the day's work and every body says he got the worth of his money. This is a case of spending money and still having its value. The class desires to thank the many patrons who came to the rooms during the day and evening, and especially those who donated generously to the class. It was the donations that enabled the class to clear so much money. After the class buys their gowns, a little jewelry, and a few other accessories to commencement it expects to leave quite a sum in the treasury for the purpose of building a new school building. This is an unselfish act and should be encouraged. It should be said that Miss Laura Burkett held the lucky 47, and got a cake.

The Literary program conducted in the high school study hall was of exceptional fine merits last Friday. It was the General Patton Society, under the leadership of President George Wrigley that entertained. This Friday the Colonel Ed. Irwin Society will render a program. You are invited.

The school would like to know what the American Legion expects to do on Armistice Day. Exercises are being prepared in different forms. But the wishes of the American Legion will receive first consideration.

The pupils of the Upper Woodland school gave a delightful Halloween entertainment and social in the school building on Friday evening last. About thirty young folks were entertained at a Halloween party at the home of Miss Lelia Mullen on Monday evening.

Miss Dorsey Beard and Mrs. G. E. Mauk returned Friday from Wilkesport where they were visiting friends.

William Wilkinson left Saturday on a visit to his son who resides in Templeton.

Miss Bessie Pickles entertained her Sunday School class of boys and a number of little girls at a Halloween party at her home on Friday evening last. It is needless to say the youngsters had a good time.

Mr. and Mrs. Nathan Davis, former resident of our town now of St. Mary's, visited relatives here this week.

Mrs. Frank Shipley, of Clearfield

"Davy" Crockett as Statesman.
David Crockett was in Congress from 1826 to 1836 and from 1832 to 1834, representing a Tennessee constituency. At the end of his last congressional term he joined the Texans in their war against Mexico and helped defend the Alamo in 1836. He was one of the six survivors who surrendered and was shot by order of Santa Anna.

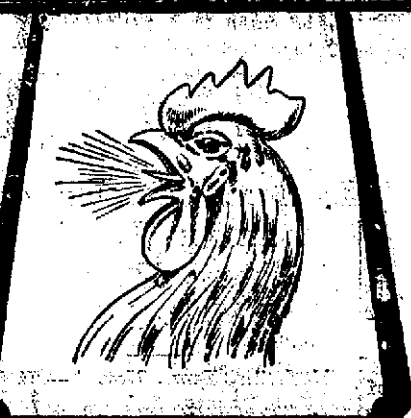

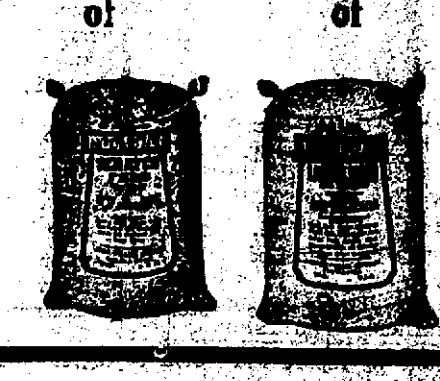

Surely a Good "Catch."
There is a great deal that the King of Sheeps has to offer a wife. He has 20 rams, a "Diamond City," a herd of white elephants, nearly two million pounds worth of diamonds, pearls, rubies and other precious stones, a state barge with a hundred and twenty cabin men, thousands of other royal barges, a share in 24 golden umbrellas and many other luxuries.

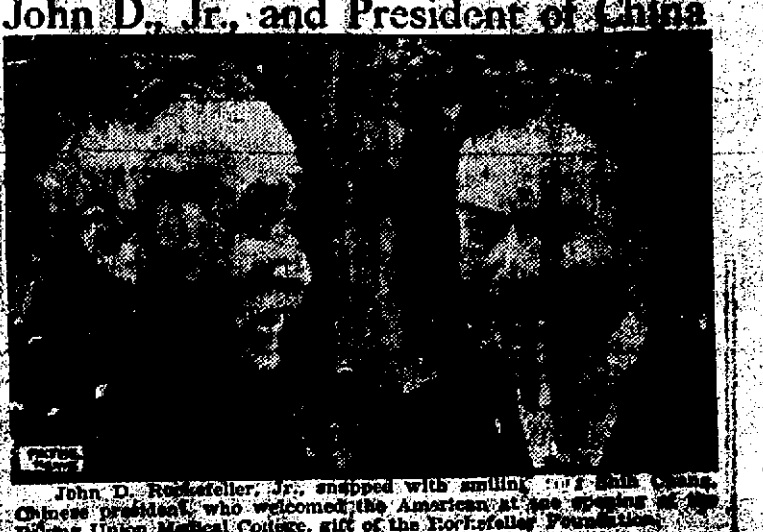

"JUST" DRUGS
Our drugs are JUST drugs in the sense that they are right in purity and potency and are just in their ability to treat sickness. They are not "just" drugs in the sense that they are merely drugs but are the acme of perfection in drug quality always.
Remember this when you have a prescription to fill or when simple drug requirements come in demand, because no matter how simple an ailment may be, the drugs for the relief must be essentially correct.

How's Your Stomach?
If You Have Indigestion, Gas, Sour Stomach, take this Advice
Bedford, Pa.—"I have taken Dr. Pierce's Golden Medical Discovery and consider it the best medicine I have ever used for stomach trouble. I suffered with my stomach for a long time—it was gastric stomach trouble. My food did not digest it would sour and ferment, causing me to form, and I would be greatly distressed. I took the 'Golden Medical Discovery' and it gave the greatest relief in the world. I could eat and my food would digest better and I never have had any more distress. To anyone who suffers with stomach trouble I would advise the use of Dr. Pierce's Medical Discovery." S. J. McVicker, 243 W. Pitt St.
Correct your stomach—and improve your blood with this 'Discovery' of Dr. Pierce's and strength your vigorous vitality with 'Golden Medical Discovery'—Dr. Pierce's 'Invalids' Food in Buffalo, N. Y., for free medical advice or send for trial tablets.

Taste Alone is Not Sufficient.
It will be found that taste alone is not sufficient to obtain the proper end of reading. Two persons of equal taste rise from a perusal of the same book with very different notions: the one will have the ideas of the author at command, and find a new train of sentiment awakened; while the other quips his author in a pleasing distraction, but of the pleasures of reading nothing remains but a tumultuous sensation.—Isaac Disraeli.
High Praise.
Phil was exceedingly fond of the woman who lived next door. She often asked him to stay for meals. One day after a dinner which he enjoyed very much, he turned to the man of the house and said: "You got a mighty good home here."

ODDS AND ENDS AND THINGS

"By Skinny"

Now that the hunting season is in full swing and reports of shooting accidents are a daily occurrence the following, Don'ts For Hunters, should prove timely reading:

Don't forget there are other hunters in the woods.

Don't become careless about handling your gun when returning to the hunting camp. Accidents usually occur when the hunter is tired.

Don't permit the gun to point toward your companion. Don't forget to put the safety down or remove the loads when climbing a fence or fording a creek.

Don't lean on the muzzle or place the muzzle of the gun on your feet when resting.

Don't put the muzzle of the gun on the ground. Should the muzzle become clogged with mud it is certain to burst when discharged.

Don't carry your gun loaded into a village, hunting camp or house.

Don't forget to keep track of your companions when in the woods.

Don't forget to use common sense and the chances are accidents will be avoided.

Don't regard the game warden as your enemy. When he makes himself known, answer his questions.

Don't forget to carry your hunting license receipt with you.

Deaths from accidents caused by automobiles and other motor vehicles, excluding motorcycles, increased in 1920, as compared with 1919, the Census Bureau announced today. The deaths due to motor vehicles last year averaged 10.4 per cent. per 100,000 population, as compared with 9.4 per cent. in 1919.

Approximately 9000 persons were killed last year by motor vehicles in the death registration area, which comprises 82 per cent of the population of the United States. The Bureau's figures, however, show that the automobile is not nearly so dangerous as it was earlier. In 1915, there were two deaths to every 1000 motor vehicles, while last year the ratio was 1.2 per cent.

The New York City health department has evolved a scheme for killing off all the rats which infest the Greater City.

A half dozen of the city's 6,000,000 rats will be inoculated, it is explained, with a virus which will cause their death. The rats, it is believed, have been released to combat the fleas which are the carriers of the plague. These, in turn will die, and provide poison serum for succeeding links in the endless chain, it is claimed.

The average man, woman and child in the United States is taxed 12 cents a day by the federal government, of which 11 cents goes to pay for past wars, and for future wars.

Each is paying only 5 1-2 mills for the support of the government, 1 1-2 mills for all public works and another mill and a half for education, public health and research work, making a total of 8 1-2 mills, according to figures compiled by Dr. Sidney L. Guice, secretary of the commission on international justice and goodwill of the Federal Council of the Churches of Christ in America.

Of the 11 cents for war, 3 1-2 cents goes for armament. This is more than 4 times as much as is spent for all other governmental departments and work.

Health Commissioner Copeland of New York City has a bunch of fat, fat and forty-year old men and women who are undergoing diet and exercise in order to reduce their weight. At the end of the first week three of the women had actually put on flesh, under the gruelling program, but at the end of week No. 2 not a single one had gained, while one old girl who weighed in at 281 had shaken off twenty pounds. "Philadelphia Jack" O'Brien, who has charge of the training at the conclusion of the second week's measuring and weighing reported that the ladies had lost an even eight feet of waist line during the battle thus far.

President Quigley, of the local Health Department, is thinking of arranging for a similar class here in Clearfield, providing Health Officer Gaulin will agree to accept supervision of the same.

The Last Word.

The sweet young thing thought she was making a huge success. "There is only one thing I can't understand," he started to say. "Only one?" she asked, without letting him finish. "There was one. Now there are two. The second is why some girls never learn that it is only the pretty ones who can afford to be impatient."

THE EXECUTIVE BOARD OF THE CENTRAL TRADES AND LABOR COUNCIL ENDORSES LAING.

To All Organized Bodies of Labor in DuBois and Clearfield County, Greeting:

After very careful investigation we, the members of the Executive Board of the Central Trades and Labor Council of DuBois, Pa., unanimously endorse Mr. John Laing for the office of Treasurer of Clearfield County.

While this action on the part of the Board is very unusual the intent, honesty and personality of the man himself has forced the members of the Board to take this step. This endorsement comes unsolicited, by Mr. Laing and we believe he is, so far as organized labor is concerned the one white hope before the people for County office in Clearfield. Boy and Man, Mr. Laing has been a miner all his days. In the latter years while operating mines of his own he has never employed other than union labor and has always paid just a little more than the scale required.

Union miners, you who do not know the man, go and talk to him and you will find as we did that there is no guile in him and that he heart and soul for the fellow that works.

We care not who you are, or what labor organization you may be a member of, you cannot talk to Mr. Laing for five minutes without being impressed with the fact that the man does not know how to pose. He has only one line of talk and that comes from the big heart of him. They say he is a Democrat. If so, it does not hurt him any. Mr. Laing has gone on record as saying that if elected his administration of the duties of the office would be along the same line as he employs in running his mines. That should be enough for the fellow that works.

When told of the action of the Board among other things he said, "Boys, I would rather hear that than hear that I was elected." Fellow workers, it is not often that we get a chance to vote for a real man. Let us forget our party prejudices long enough to put Laing in Clearfield and see what happens.

The above action of the Board has been endorsed by U. M. W. of A. No. 2722, DuBois, Pa.

MR. SAM COOK,
President of Executive Board.

W. F. WOODS,
Acting Sec'y. of Executive Board.

BIG CONTESTS ON SATURDAY FOR GRIDIRONERS

Major College Squads Start Big Drive To-morrow In Big Penn Game Big Fray.

By HENRY L. FARRELL
United Press Correspondent
New York, Nov. 4.—Down to the point where games mean everything the major teams start the last hard drive tomorrow in the big Penn game. Three games stand out as the feature of a program of nation wide interest.

In the East, attention will center on the first battle of the "Big Three" between Harvard and Princeton at Princeton. In the West, Ohio State and Chicago will go through the elimination of one of the contenders for the Western Conference Championship. And on the plains of West Point, Notre Dame and the Cadets will have the annual intersectional classic.

Princeton, on the season's showing, ought to fall a victim to Harvard but there must be considered the fighting spirit of the Tigers, that brought them out of a similar rut in 1919 when they tied Harvard and beat Yale after losing to Colgate and West Virginia.

Ohio State and Chicago offer a good hand for a clairvoyant. Against Princeton, Chicago looked almost unbeatable on the offense, although Capt. McGinnis' men did not make the most of their scoring opportunities. They did not face the offense also that Ohio State is sure to present. The Columbus team in beating Minnesota and Michigan showed form worthy of a champion. The breaks of the game ought to be an important factor, and Ohio in the past two seasons has shown great adaptability in making the breaks.

The battle between West Point and Notre Dame ought to be one of the classics of the year. The Cadets have one of the best teams in the history of the Academy and one of the best in the East. Notre Dame is always good but it remains to be seen how good the Southlanders will be against the soldiers without the greenery which the Cadets longed for last fall.

These three games by no means corner the season on Saturday.

The Intercollegiate game at Philadelphia should be one of the best of the day, although Penn's prospects are rather gloomy. Yale, getting ready for the Princeton game next week has a rather hand-picked opponent in Maryland. Another intersectional game of interest will be staged at Pittsburgh where Glenn Warner's great Panther outfit will meet Nebraska. Penn State and the Navy are both getting ready for their battle next week. Penn State is playing Carnegie Tech and the shipmen will work out with Bucknell.

Why Pasteurized Milk

By Henry F. Miller, Dairy and Food Inspector, Kenosha, Wis.

Many people do not understand what pasteurized milk is and its purpose. Others still cling to old obsolete ideas believing in the "good old days" when we had the "Old Oaken Bucket," when we had common drink cups on the street fountains, when the milk had that good flavor, which is nothing more or less than the animal taste of uncooled milk along with more or less manure that dropped into the milk while the milking was in progress. Clean milk, properly cooled, has no flavor.

Properly pasteurized milk is not boiled milk nor is it scalded milk. It is milk heated to 145 degrees F., which is 67 degrees below the boiling point and then immediately cooled. Such milk has no cooked taste, does not alter the chemical composition of the milk in any way, does not kill the vital things which are vitamins.

What does it do then? Only one thing. Guarantees that your milk is safe, free from the bacteria that cause tuberculosis, typhoid fever, diphtheria, and so forth. Yes, this is the one and only thing pasteurization does, and the only way that the milk from even the best dairies can be made safe. You say, "Who ever heard of such things happening from fresh milk coming from good clean dairies?" Only a few years ago at Galesville, Wisconsin, a little village of some 200 people, there was an explosive outbreak of 325 cases of septic sore throat, several of the cases proving fatal. The source was finally found to come from one of the cows in the best dairy furnishing the village supply; and so many cases can be found. Must we pay such a penalty to learn the lesson? There is only one way to be absolutely safe, even with certified milk, and that is to pasteurize it.

Heating of milk to 145 degrees for thirty minutes causes no chemical change on the composition of milk except to slightly destroy the cream line. Criticisms are still made that pasteurized milk is more constipating and causes rickets and scurvy. To quiet such criticism New York and Washington have been conducting experiments along this line. Thousands of children were fed pasteurized milk daily for three years and the average daily increase in weight of the babies thus fed was equal to the average increase of the babies of like age fed clean raw milk, and no case of rickets or scurvy developed.

For three years, 3,609 babies from New York City were fed on milk from a carefully selected herd pastured on the island. The death rate was 41.81 per cent. A pasteurizing plant was then installed. No other change in diet or hygiene was made. For the next seven years the death rate, out of 6,200 babies, was 21.75 per cent. Had the ratio of deaths for the first three years been maintained in the next seven years, the total infant mortality would have been 2,592 instead of 1,349, a difference of 1,243.

In Chicago there has been no milk borne epidemic of contamination since 1916, when an order was issued requiring all milk to be pasteurized. The typhoid fever death rate dropped from 19 per 100,000 in 1909, when pasteurized milk was first instituted, to 1 per 100,000 in 1917, when 98 per cent of the milk was pasteurized. Infant mortality under one year dropped from 70 per 1,000, when no milk was pasteurized, to 27, when 98 per cent was pasteurized.—Adv.

Vive La France! Foch Arrives!

General Pershing raced across the seas so that he might be here to greet Marshal Foch in New York. The general won the race, for here you see him shaking hands with Foch at the Battery. On the left is Governor Miller of New York.

Monastery Wine Mystery.

Mystery surrounds an old monastery near South Lee farm, Datchet. The greater part was pulled down some years ago and fire destroyed a good deal of the remainder. There are several deep wells, and it is said that at the bottom of one there are 3,000 bottles of wine placed there by monks, but an attempt to find them has failed. Under the ruins are a large number of earthenware bottles of quail pattern, and there is a legend that a subterranean monastery exists to Burnham Abbey.—London Daily Mail.

Why Copper Is Superior.

Lightning conductors are commonly made of copper because it "conducts" better than any other metal, will not fuse so easily and is less liable to corrosion. The fusing of metal by lightning is not because of the metal's softness, but because it is too small to give a full path to the current.

The Care of Jewels.

It is stated by good authority that the safest way to carry jewels is in a belt made for the purpose, around the waist. This is not exposed and is secure. If reasonable care is taken in adjusting it, and it is not uncomfortable. The worst possible way is to put them in a jewel case. The business of duplicating strings of pearls is at present a profitable industry of the Riviera towns. The billiards are worn and the genuine are kept in the safe.

Across France by Boat.

It is quite possible to take a small vessel from Havre to Marseilles, right through the middle of France. Such a trip was made not long ago. A one place on one of the canals the ship passes over a kind of viaduct and from the deck a stream may be seen running beneath. At another spot a tunnel through the rock has to be negotiated. The tunnel is about the size of a railroad tunnel, and the boat is pulled through by an electric tractor.

Miner's Cradle.

The cradle is a simple appliance for treating "pay dirt," earth and gravel containing gold-dust. It consists essentially of a box, mounted on rollers, and provided with a perforated bottom of sheet iron in which the "pay dirt" is placed. Water is poured on the dirt, and the rocking motion imparted to the cradle causes the finer particles to pass through the perforated bottom onto a canvas screen, and thence to the base of the cradle, where the gold-dust accumulates on transverse bars of wood called "rattles."

Drops of Water in Fog.

A dense fog contains anywhere from 20,000 to a million droplets per cubic inch, according to the size of the droplets.

Odors Carried Far.

The odors of tropical vegetation growing on islands in the West Indies can at times be detected on board vessels 25 or 30 miles from shore.

WHEN THE KIDDIES ARE SICK

GIVE THEM ICE CREAM.

Of course, it depends on what your doctor says, but if he says they may have something of the sort, be sure its a pure ice cream.

KEYSTONE ICE CREAM

IT IS PURE

There's a Keystone Dealer Convenient To Your Home.

"HEY! FRANK! COME OUT AND GET OUR TRUCK!"

That was the hail we got over the phone the other day when it was raining pitchforks, and the hail came from Shawville.

We piled into our service car, got the truck and it's on the road today delivering merchandise.

Weather or other difficulties are the same to us—we give service.

JORDAN'S

"X-Rays" and Finger Prints.
The modern detective makes use of X-rays. The subject's fingers are dipped into a metallic solution and then gently wiped with a soft cloth. In this way the metal is removed from the "ridges," but allowed to remain in the "furrows" of the finger tips. When an X-ray photograph is taken, the latter show up as clear, sharp, distinct lines. As the photograph can be very greatly enlarged, the most minute peculiarities are distinctly seen.

What Club Meant to Him.
Poddie, a four-year-old, was invited to go with his mother to the Mother's club. He showed no great desire to go and, after his mother had repeatedly told him that she wanted him to go with her, said with a great show of resignation, "Well, I s'pose I'll go, and let them hit me all they want to."

Romance of Paper.
When our forefathers were cavemen the Chinese were reading books printed on paper fashioned from the bark of the mulberry tree or of bamboo sprouts. The Moors introduced paper in the twelfth century into Spain.

Failure Generally One's Own Fault.
The "smell" man remains small by reason of his own shortcomings, not because of the persecution of others. We too frequently go far afield to learn the reason for our failure, when all we have to do is to look around a bit at home.—Grit.

Working Out

Mrs. Evelyn Forsythe, New York society horsewoman, giving "fin" a workout in Central Park, in preparation for the annual horse show.

World's Greatest Volcano.
The "House of Everlasting Fire" is part of the great volcano Kilimanjaro on the Hawaiian islands. What Niagara is among waterfalls Kilimanjaro is among volcanoes. Not so beautiful as Vesuvius or Elma, but so high as some of the lofty flame mountains of South America, Kilimanjaro remains its title by sheer power in which it is unrivaled. The center about four miles square is an area of black desolation, a floor of lava and jagged peaks and spines of lava in the circles of terror in the distance.—Kansas City Star.

Statesman's Sound Advice.
We should do nothing inconsistent with the spirit and genius of our institutions. We should do nothing for revenge, but everything for security; nothing for the past, everything for the present and the future.—James A. Garfield.

Kiddies' Colds Can Be Eased Quickly

Dr. King's New Discovery will do that very thing, easily and quickly. Don't say, "Poor little kiddie, I wish I knew what to do for you!" When the cough first comes, give a little Dr. King's New Discovery as directed, and it will soon be eased.

It's a good family cough and cold remedy, too. Loosens up the phlegm, clears up the cough, relieves the congestion. No harmful drugs. For fifty years a standard remedy for colds, coughs, grippe. At your druggists, 60c a bottle.

Dr. King's New Discovery For Colds and Coughs

Constipated? Here's Relief! Cleanse the system with Dr. King's Pills. They prompt free bile flow, stir up the lazy liver and get at the root of the trouble. All druggists, 25c.
